

CEPF Caribbean Islands Project Grievance Mechanism

Conserving the Imperial Amazon Parrot in Dominica (CEPF-117080)

A grievance can be an issue, concern or problem that is related to the implementation of a CEPF-funded small or large grant. We have put this grievance redress mechanism (GRM) in place to formally receive and record complaints and solve problems. Anyone who has a concern about any aspect of a CEPF-funded project in the Caribbean Islands Biodiversity Hotspot, including the Regional Implementation Team (RIT), should make a report so we can collectively improve the way we work.

First Level of Redress

Step 1: Submit Complaint

Submit your complaint to Caribaea Initiative by email, letter, telephone or in writing (see contact information below).

All information received will be treated as confidential. Reports can be anonymous.

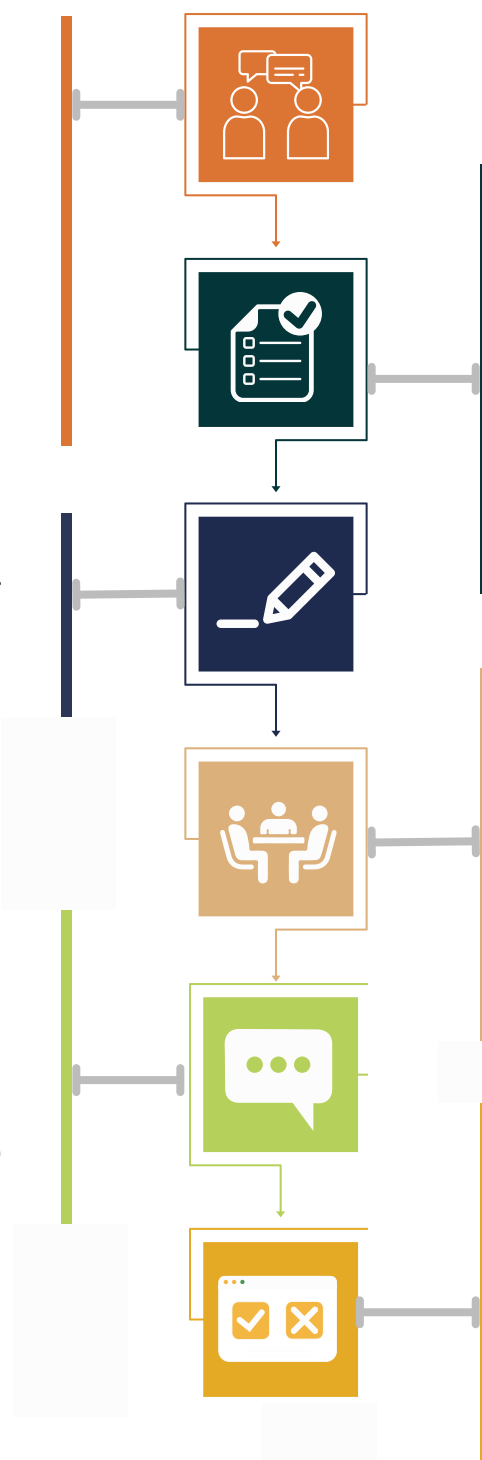

Step 3: Record & Notice

We will formally document your complaint.

Step 5: Resolution

We will propose a resolution based on the investigation.

If a resolution cannot be achieved, the grievance may be escalated to the CEPF Regional Implementation Team

Step 2: Receipt of Complaint

You will receive a response from Caribaea Initiative within 48 hours, by telephone or in writing.

If the matter cannot be resolved immediately, Caribaea Initiative will give you a timeline for addressing the issue.

Step 4: Assess & Investigate

We will investigate the issue and document the process, when appropriate, with the involvement of an independent party

Step 6: Agreement or Appeal

Once a resolution has been reached, the decision is communicated to you in writing, and documented in our records.

If you are not satisfied with the response, the issue can be transferred to the second level of redress.
